

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A An improved line guide for fishing rods comprising a circular ring on one end; the circular ring having a top, a bottom and two opposite sides, each of the two sides of the perimeter extended extending downwards to form respectively a vertical section; the two sides extending from the sides of the circular ring below the top of the ring; the vertical section having a distal end extended outwards and downwards and bent inwards to become narrower so as to form an inclined conical section which has a horizontal plane at one end; the horizontal planes of two sides being symmetrical and joined juxtaposed to form a flat and conical fastening section; the circular ring further having a lower end extended downwards from the bottom of the ring to form an arrow-shaped fastening section opposite to the conical fastening section.

2. (Currently Amended) The improved line guide of claim 1, wherein the inclined conical section has a vertical surface to form a surface contact with the fishing line.
